

01

Introduction to
Steliau Technology

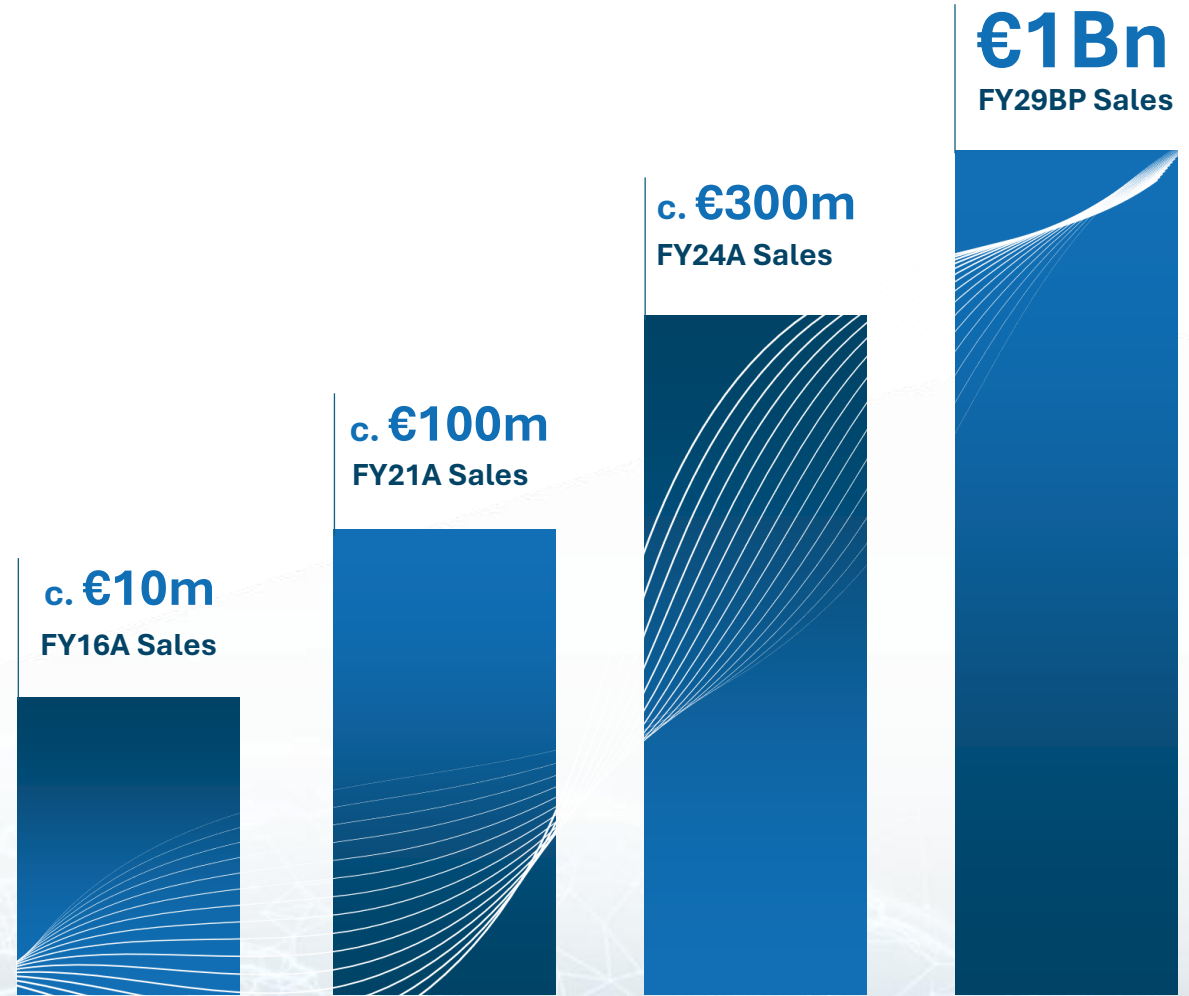

Steliau Technology is a **pan-European value-added distributor and provider of electronic solutions**

We have **global partners and suppliers, leaders in their segments**

The group benefits from a **strong market reputation and long-standing client relationships**

+€450M

Semiconductors, wireless
connectivity & sensors

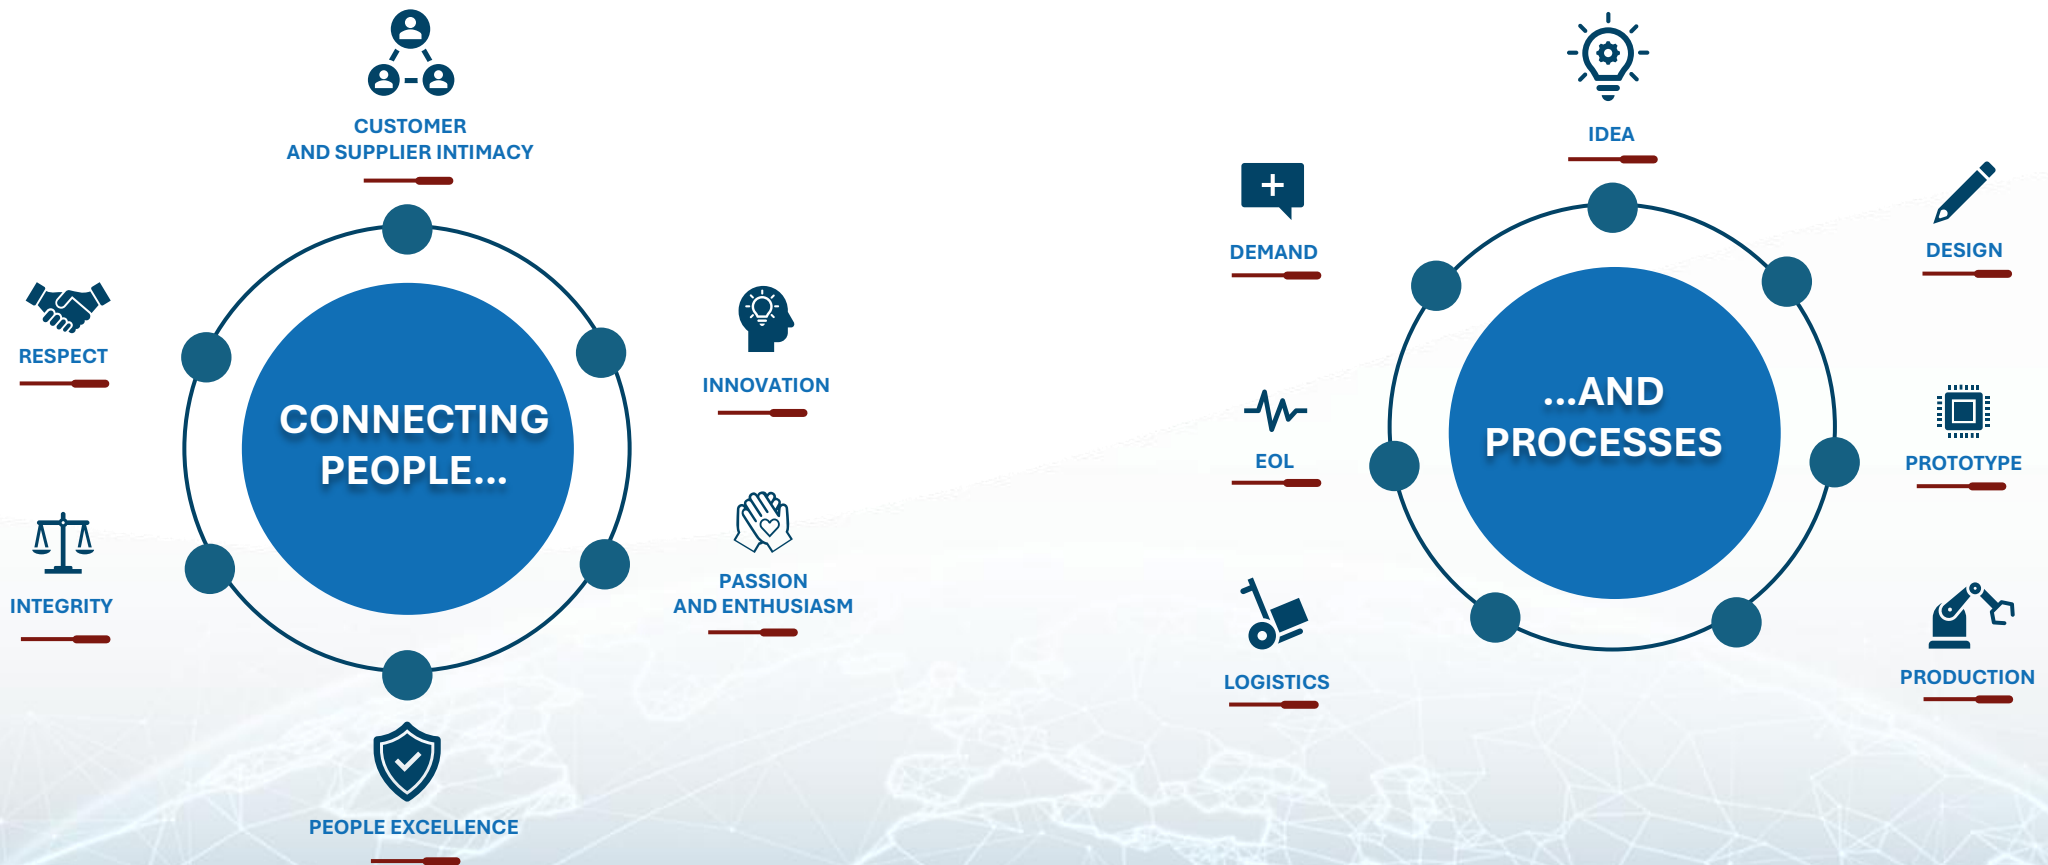

Thermal
management

Focusing on some key markets

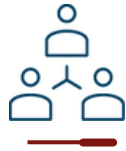

“ Managing product lifecycle updates, ensuring timely notifications and transitions. ”

Complete solutions

Various product lines covering the full range of the electronic sectors

Skilled expert teams

Sales & application engineers, account management, business and development management

Project design assistance

Assistance in hard & software to reduce time-to-market

Fine tuning & customisation

Guarantee of optimized performance

Design & (sub) assemblies

Facilitates the production and reduce total costs

Stock & supply chain management

(including in Asia)
Near by your production facility

PCN/EOL

Keep up to date about product-change and End-Of-life notifications

Monthly news updates

Monthly news about your preferred type of products and technologies.

ENVIRONMENTAL EXCELLENCE

We are dedicated to advancing our sustainability efforts, optimizing resource management, and proactively addressing climate change. Our goal is to exceed compliance, setting new standards in environmental responsibility.

ETHICAL GOVERNANCE

We prioritize strong governance, ethical leadership, and transparent practices. Our structured approach ensures that we not only meet but exceed compliance standards, showcasing our dedication to integrity and excellence.

SOCIAL RESPONSIBILITY

Our commitment extends to positively impacting all our stakeholders, including employees, communities, and customers. We strive to foster a diverse, inclusive, and supportive environment that goes beyond regulatory requirements.

Website

Our websites are designed to enhance your experience, offering streamlined navigation and easy access to product, technology, markets, supplier information across 10 unified categories.

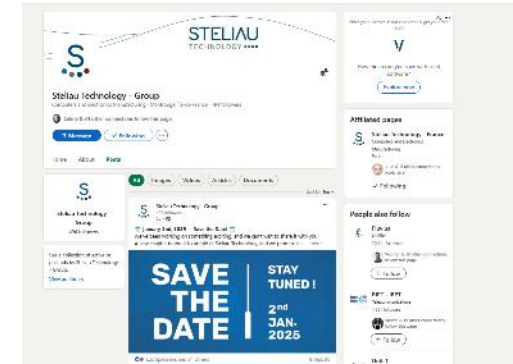

Monthly mailings

Stay informed with our segmented monthly newsletters. Tailored to your interests, these updates focus on our 10 product categories, providing insights, updates, and relevant innovations.

Events/webinars

Join us at upcoming events where we'll showcase our latest solutions, connect with partners, and share expertise.

Socials

Follow us on social media for updates, news, and behind-the-scenes content!

STELIAU

TECHNOLOGY

WE ARE

Your partner for cutting-edge electronics.
From components to complete systems, we're here to innovate!

TRUSTED BY

We're trusted by the best suppliers and customers.
Why? Quality, speed, and personalized service.

OUR TEAM

Brings decades of experience to your project.
Focused on solutions, not just products. Let's build something great together!

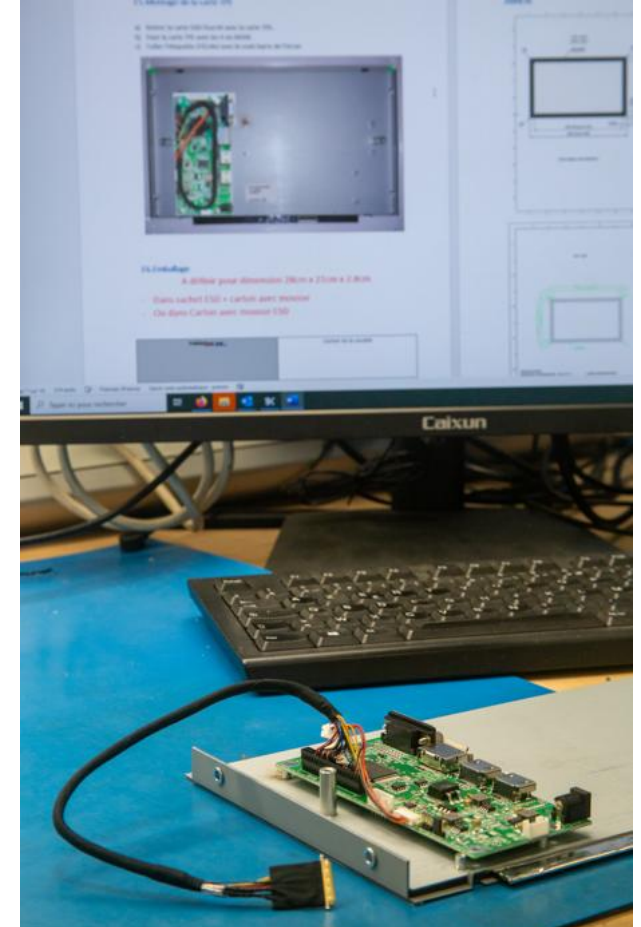

02

Extra services

A comprehensive range of services designed to support your projects from design to implementation.

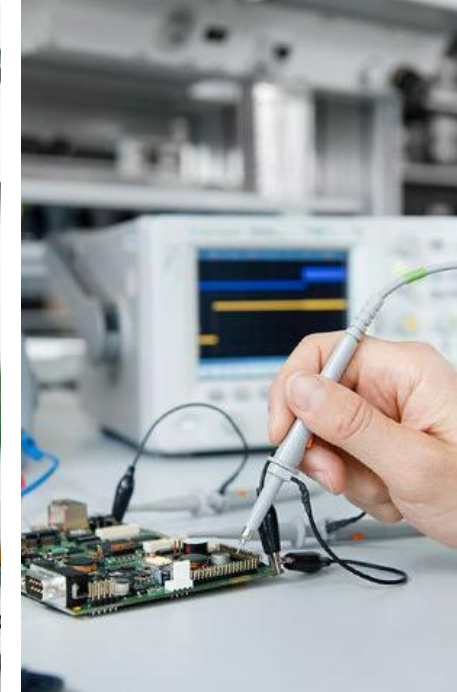

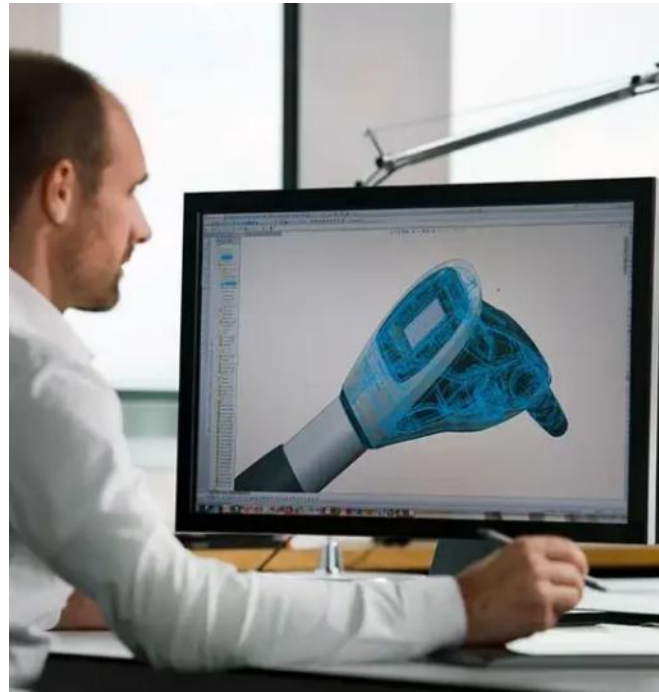

RELIABLE SUPPORT, COMPLETE SOLUTIONS

- Technical support
- Logistics & supply chain
- CAD design//electronics and mechanical design
- Tests & checks
- Customer support
- Testing RAD hardening & component preparation
- Device programming
- Firmware version control
- 4G/5G configuration services
- Sourcing & obsolescence solutions

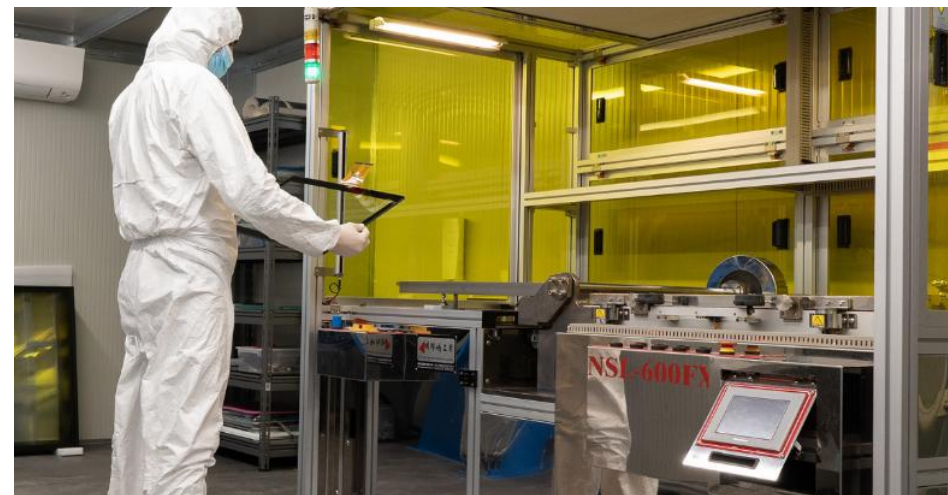

LEADER IN CUSTOMIZED TECHNOLOGICAL SOLUTIONS

- Assembly line
- Parts assembly
- Sub-assembly integration
- Industrial PC integration
- Custom-configured embedded solutions
- Cable design and production
- Box/Panel PC assembly
- FW PCAP development
- Integration of sub-assemblies into the system
- Firmware updates
- Operating system installation (Windows, Linux, Android)
- Installation of customer application software
- Final quality control (OQC) product testing on test bench

ISO 7 CERTIFIED CLEAN ROOM SCREEN & TOUCHPANEL INTEGRATION

- Air bonding
- Optical bonding
- Air gap solutions (OCA, OCR, LuciBond)
- PCAP solutions
- Coverglass customization
- Touchscreen lamination
- Controls and tests

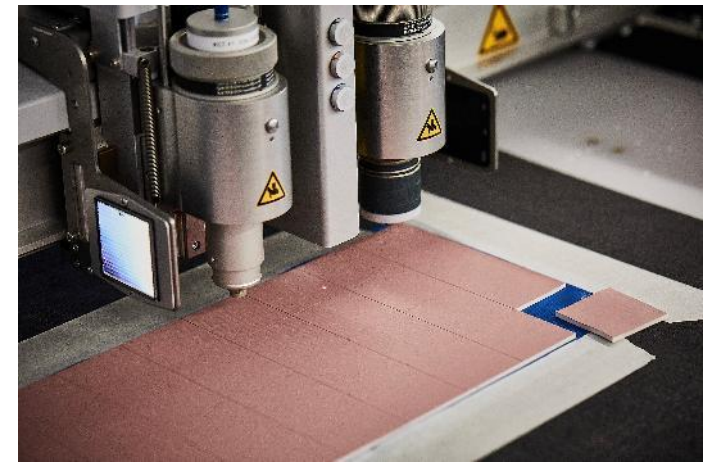

FROM THERMAL SOLUTION EXPERT TO DISTRIBUTOR-CONVERTER

- Thermal Study
- CAD design and simulation
- Custom-cut thermal insulation
- Short lead-time prototypes: production and shipping within 48 hours
- Assembly of thermal pads and heat sinks
- 3 Plotters
- Flat bed Diecutting
- Log Slitter
- Rotative Diecutting

CUTTING OF

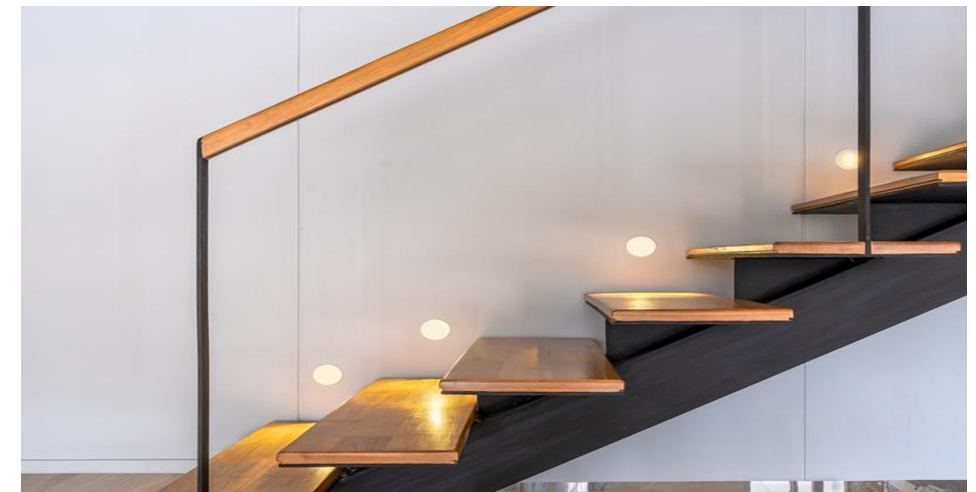

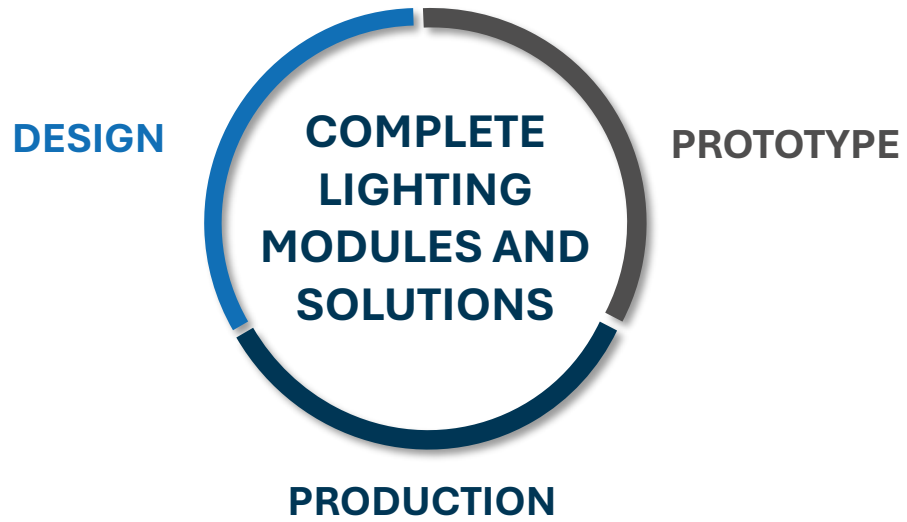

- Formex
- Nomex
- Mylar
- Kapton
- Absorbing materials
- Foams
- EPDM

FROM LED TO FULL SOLUTION AND DESIGN

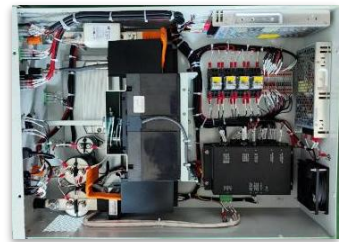

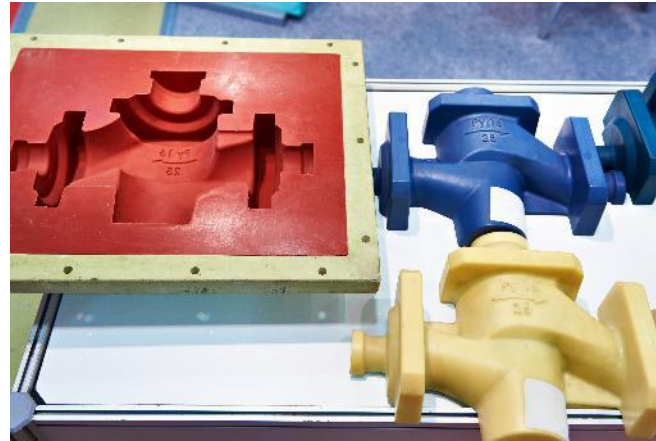

- Complete and complementary range of products
- Internal R&D department
- Reliable and knowledgeable partners

PROCESS

MECHANICAL INTEGRATION

- Plastic injection moulding
- Aluminium casting
- Fine sheet metal work
- Precision machining
- Extrusion
- Surface treatment
- High & low voltage integration
- Battery pack
- Sub assemblies & multi process assemblies

OUR MECHANICAL EQUIPMENTS

- CNC punching
- Laser cutting
- Press cutting & stamping
- CNC bending
- Welding

HARNESS SERVICES

- Cables assemble
- Harnesses based on cable with Silica glass insulation for HT sensors
- Harnesses with LED

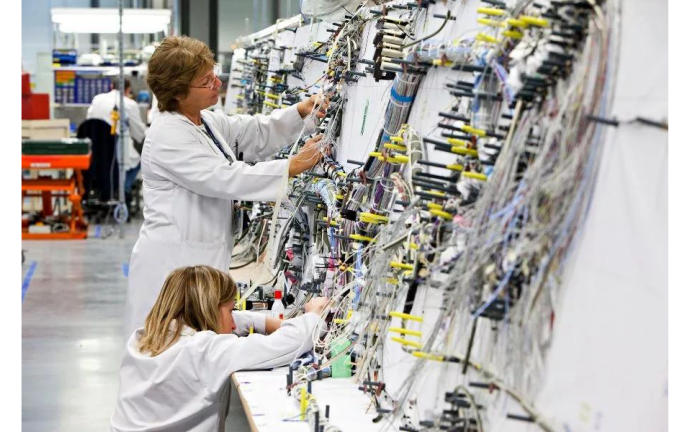

TOOLS FOR CRIMPING

FOR LOOSE TERMINALS

- Hand tools with replaceable dies or heads
- Benchtop electric, pneumatic or hydraulic presses, working with same dies or heads system as above,

FOR CHAINED/REELED TERMINALS

- Applicators, used for semi- or full automatic crimping machines
- Benchtop electromechanical presses designed to work with above applicators

Thank you
