Our journey

 Founded in Paris 1971

“

Milexia aims to provide innovative products, technologies, and solutions to its customers, no matter their location, ensuring **significant value for its partners, improving quality and service.**

”

Keep on moving

We have a vision.

We are agile by proactively embracing change, being committed to improvement.

Together we go further

We respect and support our stakeholders.

Empowering and encouraging the ideas of all. We are a team making a difference together.

Striving for excellence

We are innovative.

Knowledgeable and technology driven, aiming to reach beyond expectations in everything we do.

Inspiring trust

We are reliable and work with integrity.

We are focused on what we say and do, taking responsibility and ownership.

Main customers

Building strong relationship with the household names we have sold to.

Compliance & Social Responsibility

Milexia is a value-driven organization.

Responsible governance, good relationships with our community and an ethical approach are central to our business.

Quality

We are committed to exceed customer expectations and dedicated to continuous improvement in the development of our activities.

Corporate Social Responsibility

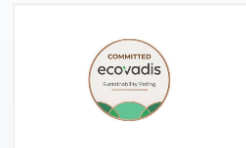

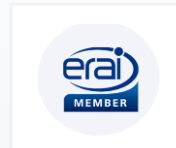

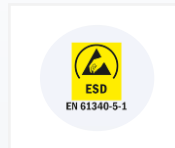

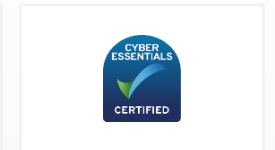

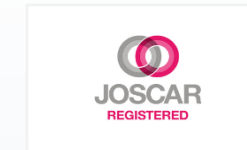

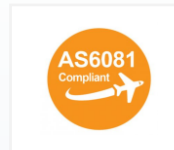

We recognize the importance of our relationship with society, and ensure it is integrated into our activities.

Cybersecurity & Compliance

We aim to ensure Milexia continues to be a risk-aware organization and establish everywhere we are operating secured information management. All Milexia employees are trained to new cybersecurity risks and we aim to be ISO27001 certified.
